

Jabsco Marine Toilets

Bring the comforts of home with you out on the water

As the world’s largest manufacturer of small craft marine toilets, Jabsco sets the standard for reliability, serviceability, and ease of use. All our toilets can be used on inland waterways, rivers, lakes or the sea, and can be installed above or below the waterline. And all can discharge overboard or into holding tanks.

See our entire line up of marine toilets below and scan the QR codes to access each product page on our website to learn more.

Jabsco Marine Toilet Accessories & Pumps

Inlet Non-Return Valve

Improves flushing response on manual and electric toilets that use sea water flush; prevents loss of prime in above-waterline installations.
Part no.: 29295-1011, 29295-1000, 29295-1010

Y-Valve

Allows waste to be pumped directly overboard or into a holding tank.
Part no.: 45490-1000

Toilet Pumpgard

Guards manual or electric toilets from pump malfunctions caused by debris.

Vented Loops

Guard against danger of water siphoning over pipework loops in below-the-waterline installations.
Part no.: 29015-0000, 29015-0010, 29015-0020

Waste Tank

This is an easy-to-install, all-inclusive system consisting of a compact polyethylene holding tank and an integral run-dry macerator pump. It has a touchpad control panel to monitor waste levels; when required, the user can activate the macerator pump to evacuate waste.
Part no.: 38110-0092

Marine Macerator Waste Pumps

Ideal solutions for emptying marine holding tanks when not in a discharge restricted area.
Part no.: 18590-2092, 18590-2094, 22130-2721

Waste Pump

Quiet and compact pump with straight-through waste path that easily passes solids in suspension, making it the ideal solution for emptying holding tanks.
Part no.: 50890-1000, 50890-1100

Twist 'n' Lock Replacement Pump Assembly

Complete replacement pump assembly for Jabsco manual toilets.
Part no.: 29040-3000

Marine Toilet Conversion Kits

Xylem's Jabsco brand offers a series of Marine Toilet Conversion Kits that allow boat owners to upgrade the functionality of their existing toilet without having to replace the entire toilet.
