

## **MARCH PUMPS**

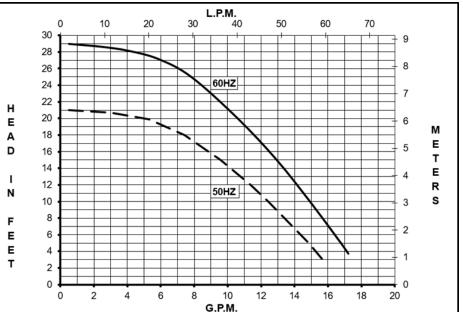

TE-5M-MD and TE-5MNS-MD

1819 PICKWICK AVE., GLENVIEW, IL 60026-1306, U.S.A PHONE: (847) 729-5300 - FAX: (847) 729-7062 WWW.MARCHPUMP.COM

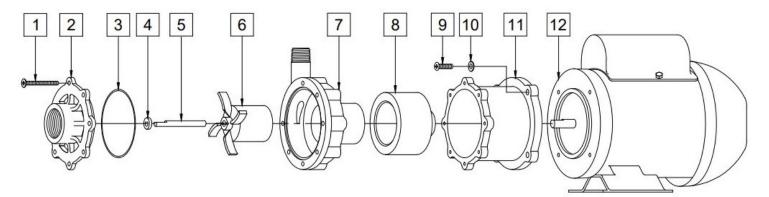

**DESCRIPTION:** <u>Series 5 are centrifugal magnetic drive pumps</u>, eliminating the need for a shaft seal. All are serviceable with a screwdriver.

**OPERATION:** Pumps are not self-priming, lack a suction lift, and thus require a **flooded suction**. Pumps **cannot be run dry** because the impeller requires the liquid being pumped for lubrication. For liquids with a specific gravity greater than water, have a higher viscosity, or for elevated temperatures, a trimmed impeller may be necessary. For application assistance, contact March Pump.

**ELECTRICAL:** Models are dual voltage 115/230V for 60hz and 110/220V 50hz. The standard motor has a conduit box. A motor with 115V 72 inch cord and plug or 230V 72 inch cord, are options. The motor is U.L. listed motor and rated for continuous duty. The pump is rated IP44. The pump is Ignition Protected per SAE J1171 and ISO 8846.

NOTE	NOTE: Contact Factory for other materials and/or parts not listed. Special voltage motors are available upon special orde										

Materials in contact with the liquid: TE-5M-MD: Polypropylene, Noryl, Buna N, 316 Stainless Steel, Carbon, Ceramic, Ceramic Magnet.

TE-5MNS-MD: Polypropylene, Noryl, Buna N, 316 Stainless Steel, Carbon, Ceramic, Ceramic Magnet.

LIMITED WARRANTY: March pumps are guaranteed only against defects in workmanship or materials for a period of one year from date of manufacture pumping water. For the complete warranty and to register online go to www.marchpump.com/warranty-registration
