

CHEMFLO 3 CC

2" x 1-1/2" End Suction Centrifugal Pump

Made with high quality investment cast 316 stainless steel components, the ChemFlo® series of pumps are designed to be applied in a wide range of pumping applications where stainless steel is required.

The ChemFlo® 3 pumps utilize a semi-open impeller design to allow for passage of larger solid sizes than similar sized enclosed impellers. Several seal options are available in addition to the standard type 2100 carbon / ceramic / Viton mechanical seal.

ChemFlo® 3 pumps are offered in two configurations, pump (with motor) and PumPAK® (without motor) versions. Electric and hydraulic motors can be close coupled to ChemFlo® 3 pumps or pedestal mounted versions are also available for long coupling.

Further expanding the versatility of the ChemFlo® series is the CFB 3 pump, a ChemFlo® 3 in NiBrAl material. All wetted parts are produced in CA 958 nickel aluminum bronze including the drive sleeve to maximize corrosion protection in seawater applications.

If ordering a pumpak with a 145TC please note that the electric motor must have a base.

Application

- Agricultural
- Commercial
- Industrial
- Marine
- OEM

Drive Sleeve

- 316 SS

SPECIFICATIONS:

Suction And Discharge	2" x 1-1/2" NPT
Materials Of Construction	316 stainless steel, CFB (nickel aluminum bronze)
Flow	Up to 125 GPM
Head Feet	Up to 125'
Impeller	5.25" semi-open, cast 316 SS
Motor	Up to 3 HP
Drive Options	Close coupled 56C, Close coupled 145TC, Close coupled 184C, Pedestal, PumPAK® (without motor)
Seal	Special seal material combinations available (consult factory), Standard carbon / ceramic / Viton
Options	Hydraulic motor .22 cu. in., Hydraulic motor .37 cu. in., Tap for recirculation or seal flush
